The Arborist is a BCMA-led federal prime delivering infrastructure risk reduction across NPS, USACE, and NCA - 9 contracts, 3 agencies, zero damage across 36 months. We operate where standard crews cannot: 70° ravine slopes, crane operations over occupied federal infrastructure, unexcavated Civil War earthworks, and active cemeteries during ceremonial hours. We have protected **4.2 million federal site users** and preserved **\$2 billion in infrastructure exposure** - without closing a single site.
